# Studies in High School

- Upper level Secondary Education is not compulsory in Greece( most students attend High School)
- High Schools offer a combination of General Education courses and Advanced Placement courses.
- Students who wish to pursue studies in Higher Education take Panhellenic exams in a specific number of Advanced Placement courses which fall into one of the following categories:
  - Humanities,
  - Science,
  - Economic and Informatics.
- This is considered to be a tough and highly competitive exam process that students go through in order to ensure education at a higher level.
